

## TOOTSIE BABES

Tootsie Babes were formed in summer 2001. Up until recently they performed in several Athens stages, bars and generally places where people go to dance. Influenced by names such as Mano Negra, Sublime, Toots and the Maytals as well as The Clash and Herbalizer, they played alongside many musicians, wrote more than a few songs and decided after all those years that they should do something with all this. April 2008 they were introduced to Blend (Cast-A-Blast) and within two months they had finished recording, mixing and mastering their first cd "Sunshine Solarium" with reggae, latin, ethnic sounds 'Blended' together in an electro/dub manner with Ines Braga and Tonino Carotone on top.

These days Tootsie Babes can be found in the studio recording their second cd.
